

DOMESTIC LINE

BREAKERMATIC®

ELECTRONIC PROTECTORS FOR OFFICE EQUIPMENT

BREAKERMATIC® Impresión, protects your equipment against damages that can be caused by blackouts, high or low voltage and transient surges. The more robust construction is especially suitable for the equipment of intensive and continuous use of a copy center or office.

IDEAL FOR:

- Printers, Plotters, Scanner.
- Photocopiers.
- Laser cutters.
- 3D printers.
- Electronic Office Equipment in General.

FEATURES:

- Protection against: low voltage, high voltage and blackouts.
- 5 sec. waiting cycle that allows the stabilization of the electrical network.
- Suppression of transient overvoltages caused by atmospheric discharges or connection of loads.
- 4 indicator LEDs to indicate the status of the protector.
- Rotation of the plug and socket.
- Fully automatic operation.
- Installation: Plug and play.

TECHNICAL SPECIFICATIONS:

Code	Nominal Voltage	Maximum Current	Maximum Load	Pole to Ground	Disconnection Voltages	Transient Voltage Suppression	Input Connection	Output Connection	
POF110 - 000EST	120VAC	15A	1875VA	YES	Low V. Cut-Off: 80 VAC ± 3% / High V. Cut-Off: 150 VAC ± 3%	270V / 474J	5-15P (B)	5-15R (B)	
Contact Type: DRY RELAY		Ignition Delay (sec): 5		Response Time (sec): 1.5		Frequency: 50/60Hz		Dimensions (mm): 131 x 85 x 45	
Weight (g): 247
